-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on March 3, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,098,106 has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. The terminal disclaimer filed on December 3, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,636,896 has been reviewed and is accepted. The terminal disclaimer has been recorded.
3. The terminal disclaimer filed on December 3, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,594,705 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 2141

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-5 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims cited below of copending Application Nos. 09/382,427 (hereafter referred to as '427) and 09/494,956 (hereafter referred to as '956).

Although the conflicting claims are not identical, they are not patentably distinct from each other because the context of the claimed invention is the same as the context of the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

6. Claims 1-5 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 of copending application 09/382,427, now U.S. Patent No. 6,829,650 B1, and claims 1-4 of copending application 09/494,956, now US Pat. No. 6,981,059 B1. Although the conflicting claims are not identical, they are not patentably distinct

Art Unit: 2141

from each other because the context of the claimed invention is the same as the context of the two commonly owned patents.

The claimed inventions in said US Patents teach the present invention substantially as claimed. However, The claimed inventions do not specifically teach in direct response to the step of connecting causing user profile information of the user to be sent to the advertiser's location over the network, receiving the user profile information at the advertiser's location, and generating advertising information to forward to the user based upon the user profile information being forwarded to the advertiser's location and forwarding this advertising information to the connected user, wherein broadcast of the audio signal causes both a connection to the advertiser's location on the network and a push of user profile information thereto.

In the same field of endeavor, Reese teaches a system for data set selection based upon user profile. Reese teaches transmitting a request that contains a user profile to a server, receiving the profile at the server, and generating the requested information based upon the user's profile (Reese, col. 1, lines 55-63 and col. 4, lines 6-21).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have incorporated the use of content customization based on user profiles, as taught by Reese, into the automatic data retrieval system of the prior art of record for the purpose of increasing the quality and relevance of the retrieved data.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

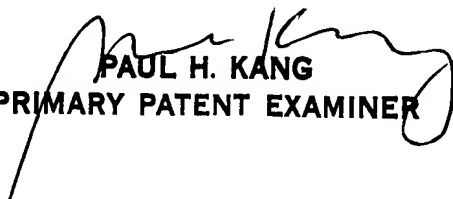

Art Unit: 2141

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
